Briggs & Veselka Co. CPAs and Business Advisors

We can help take care of business so you can focus on what matters most.

It takes a tremendous amount of time to run a successful practice. Unfortunately, that can mean you have less time to devote to your patients. We can help.

Briggs & Veselka Co. works with physicians' practices across Greater Houston to take control of the business side of medicine - **tax planning and preparation, budgeting, compensation planning, business valuations, cash management consulting and more.**

## Why Briggs & Veselka?

### We take the time to understand your business.

Specialized skills. Relevant experience. These traits have built your reputation in the Healthcare industry. You know your business, and your CPA firm should too.

As a decision maker in a competitive industry, you realize that your firm's financial concerns involve much more than simple accounting and tax compliance matters. And we realize you can't afford to be represented by a CPA firm that doesn't understand the complex issues and regulations confronting your business.

When changes occur locally or nationally that impact your business and your profitability, we make it our business to know about them.

### We know our business.

We understand your needs are far greater than the preparation of financial statements and tax returns, and our goal is to anticipate those needs and offer you the services to meet them.

For example, we can help you select and install the accounting software that's right for your business, help train your employees in accounting matters, analyze your business' value and key cost areas, and plan the best benefits and retirement packages for your business and your employees.

Financing requirements are more stringent than ever, and that's why we do more than provide timely and accurate financial information. We also act as a liaison to ensure your needs and your financial statements user's needs are efficiently and effectively met.

Knowing our business and yours makes us a solid team - a team that can help ensure a solid foundation for the future of your business.
